

Financial Online Calculators

Boost your digital transformation with increased customer engagement in your digital channels

Empower your **customers to be quickly and easily informed about the most common financial aspects** of their lives

Self-service online tools with up-to-date information from the Swiss market available in four different languages

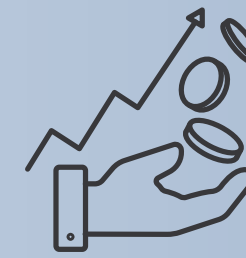

Each of the calculators is a **white label**, fully customizable product, simple and easy to implement

Meet our selection of financial online calculators

17 online calculators covering the most relevant financial needs of the Swiss customer.

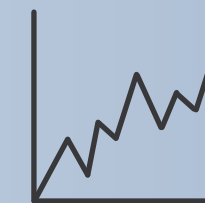

What will my tax-adjusted retirement income be?
Is it worth buying into my pension fund?
How much could my income be in retirement?

How much tax do I save by paying into the 3rd pillar?
How high are my taxes?
How much tax do I save when moving to another municipality / canton?

How much tax is due on inheritance and gifts?

Is the return on a Pillar 3a investment higher than on other investments?
How will my 3a assets develop with different interest rates?

How much is this in foreign currency right now?

Is the return on my life insurance higher than on financial investments?

How much do I need to save each month to reach my savings goal?
How can I save more on my expenses?

Should I rent or buy a residential property?
Should I amortise a mortgage directly or indirectly?
How much will my mortgage be based on interest rates?

All calculators are designed on the same step-by-step navigation basis and offer the possibility to generate a PDF with all facts at the end of the customer journey.

Benefits

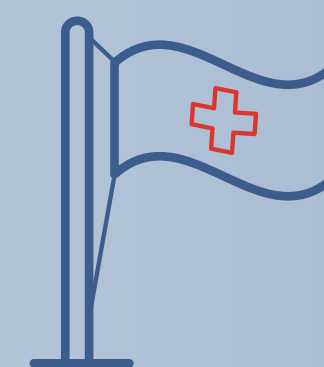

The online calculators offload the amount of work from bank employees, so they can focus on more important tasks while engaging the customers on your web page in a consultative way and attracting new customers while optimizing your operational costs

The information is constantly updated and includes all the specifics of the Swiss market in four languages

Customers embracing the digital channel can access the informative calculators anytime on your website

The calculators are an established product of ours on the Swiss market – thereby enabling a fast time to market and a **“plug and play” implementation** with an experienced team
